

# Reporter 3.0

---

## Known Issues

- If you have created a Reporter template using Microsoft Word 2003 and then modify that template using Microsoft Word 2007, when you try to save the template, Word 2007 may stop responding. Use Word 2003 to modify templates that were originally created using Word 2003.
- If you install Reporter 3.0 software for one user while another user on the same computer still has Reporter 2.0 installed, Reporter 2.0 will appear in the Add or Remove Programs dialog box for the second user and the Remove button will be unavailable. Both users will still be able to use Reporter 3.0.

---

## How to Get Help

- For written procedures and other information, see the Reporter User Manual.
- For support, contact Applied Biosystems/MDS Analytical Technologies

Email: [ms\\_support@appliedbiosystems.com](mailto:ms_support@appliedbiosystems.com)

This document is provided to customers who have purchased Applied Biosystems/MDS Analytical Technologies equipment to use in the operation of such Applied Biosystems/MDS Analytical Technologies equipment. This document is copyright protected and any reproduction of this document or any part of this document is strictly prohibited, except as Applied Biosystems/MDS Analytical Technologies Instruments may authorize in writing.

Equipment that may be described in this document is protected under one or more patents filed in the United States, Canada, and other countries. Additional patents are pending.

Software that may be described in this document is furnished under a license agreement. It is against the law to copy, modify, or distribute the software on any medium, except as specifically allowed in the license agreement. Furthermore, the license agreement may prohibit the software from being disassembled, reverse engineered, or decompiled for any purpose.

Portions of this document may make reference to other manufacturers and/or their products, which may contain parts whose names are registered as trademarks and/or function as trademarks of their respective owners. Any such usage is intended only to designate those manufacturers' products as supplied by Applied Biosystems/MDS Analytical Technologies Instruments for incorporation into its equipment and does not imply any right and/or license to use or permit others to use such manufacturers' and/or their product names as trademarks.

Applied Biosystems/MDS Analytical Technologies Instruments makes no warranties or representations as to the fitness of this equipment for any particular purpose and assumes no responsibility or contingent liability, including indirect or consequential damages, for any use to which the purchaser may put the equipment described herein, or for any adverse circumstances arising therefrom.

Applied Biosystems/MDS Analytical Technologies Instruments is a joint venture between Applied Biosystems and MDS Inc.

The trademarks mentioned herein are the property of either Life Technologies Corporation, MDS Inc., Applied Biosystems/MDS Analytical Technologies or otherwise, their respective owners.
